

Software Developer

Job Type: Permanent
Location: Dereham
Salary: £25k-£30k per annum
Start Date: ASAP

The role:

We are looking to appoint a well organised, highly motivated individual to join the small team responsible for our Warehouse Management product AWM. The main programming language required will be Delphi, but you will need to have experience of SQL including stored procedures. Experience of C#, VB.Net and Visual Studio would be a definite advantage in this role.

The work will involve the maintenance of existing code and new product development.

Benefits:

Salary £25k-£30k per annum
Private Medical Cover
Life insurance

The person

You will preferably be a graduate with a BSc (Hons) in Computing or IT related subject and have some commercial experience. You will have a professional approach with the ability to work to agreed specifications and delivery dates.
