

Interface System

To facilitate both the communication between multi site companies using SYSPRO, as well as the electronic interchange of data with customers and suppliers.

The value of SYSPRO Interface System

- Easy to use file import/export facility
- Export/import of inventory transactions, GIT transactions, cash payments, sales invoices, balance take-on of initial sales history and master file amendments made to inventory or customer master files
- Business-to-Business Trading programs communicate via a flat ASCII file or as XML documents when exporting information
- Export new/changed purchase orders and/or blanket purchase orders
- Imports purchase order confirmations and/or new/changed sales orders and blanket sales order releases
- Export order acknowledgements and delivery notes, invoices, debit and credit notes
- Import/export contract prices

Matching SYSPRO Interface System to your business

- Validation checks to verify imported data
- Optionally update prices and discounts when importing inventory records
- Allows user to decide when and how often various locations will be updated
- Provides the ability to choose whether to transfer all information with each update, or to transfer only the changes that have occurred since the last update

Reporting

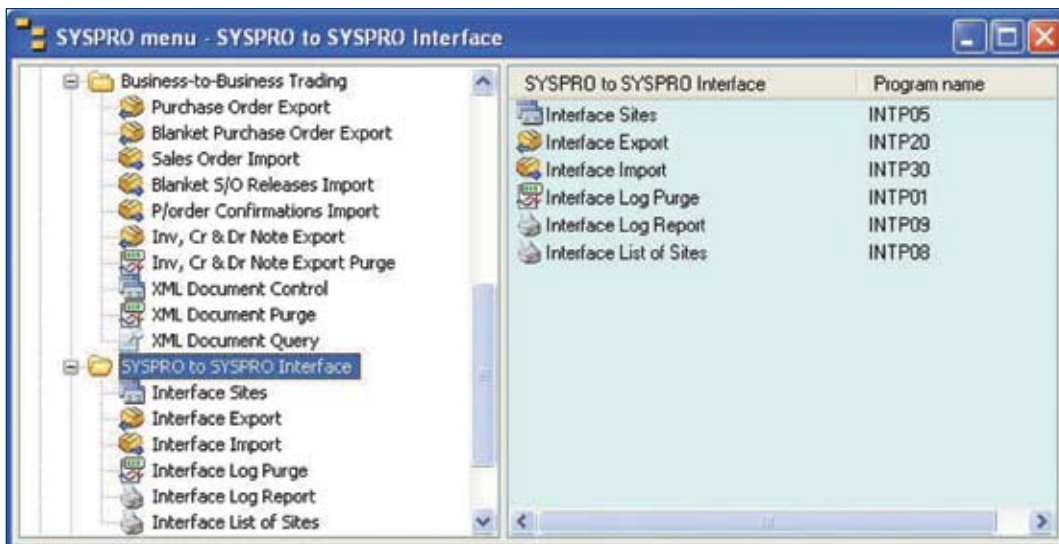

- Log report to list all transactions that have occurred during an export function, an import function, or both

K3 Factsheet

Interface System
