

# SYSPRO e.net solutions

SYSPRO e.net solutions is a simplified development environment which is extensible, version independent and provides a standard interface for integrating with SYSPRO using industry standard technologies

### SYSPRO e.net solutions comprises 3 independent components

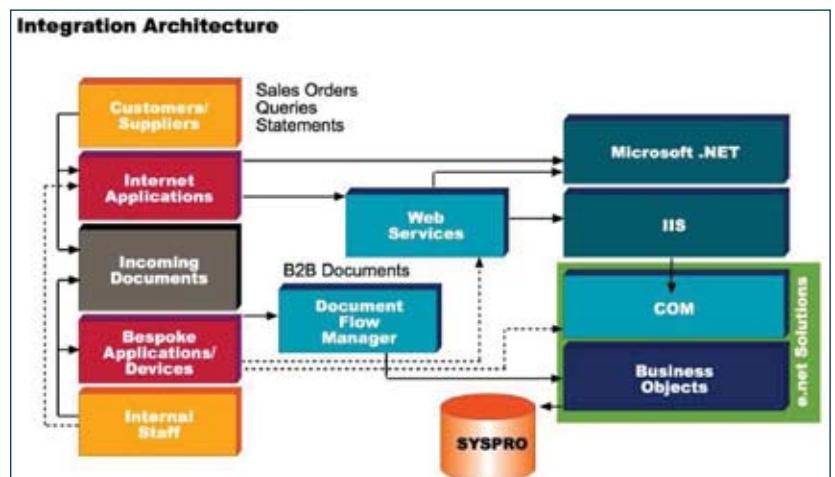

- Business Objects
- Document Flow Manager
- Web Based Applications

### The value of the SYSPRO business objects

- Version independent when requiring upgrades to the software
- Rapid application development
- Remove complexity of SYSPRO business logic, validation and data structure from developers
- Model business processes to provide customised solutions for the client
- Single set of security settings for both business objects and the core product
- Develop customised user interfaces to standard business logic
- Developers not required to learn a proprietary language
- Use with any COM aware development environment
- XML is the communication medium

### Matching SYSPRO business objects to your business

- Rapidly develop applications to match existing and new business processes
- Examples of development environments
- Mobile applications (using PDA's, Cell phones etc.)
- Customer specific web applications or package software for retail
- Easy deployment of home made application to sister company or division
- Bulk upload applications
- Integrate to best of breed applications
- Integrate to scanning and RFID solutions

# Document Flow Manager (DFM)

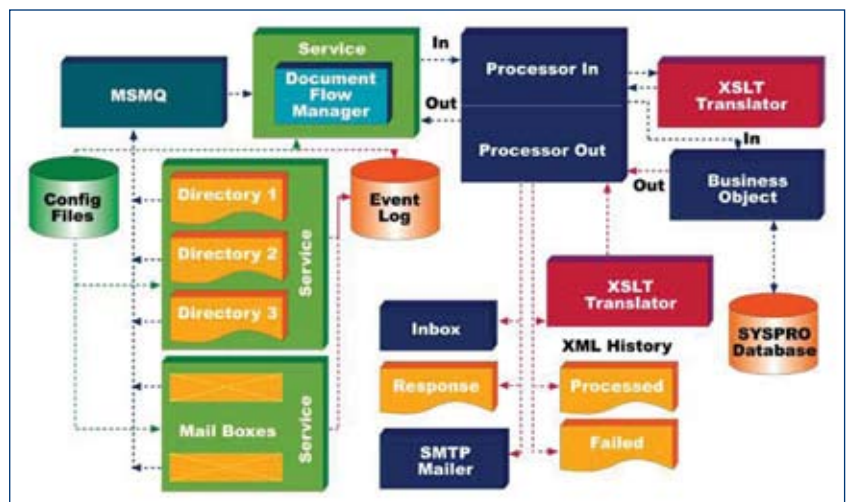

A component of the SYSPRO e.net solution designed to facilitate collaborative commerce by automating document flow between trading partners.

## The value of SYSPRO DFM

- Automatic and instant retrieval of documents as they arrive
- Route or immediately process the documents without operator intervention
- Interact with any available SYSPRO business objects, e.g. automate a response via email to a request for inventory information
- Reduce lead time between trading partners
- Eliminates duplication of effort
- Improve customer service with automated email functionality
- Offers 24 hour processing
- Promotes cost saving

## Matching the SYSPRO Document Flow Manager to your Business

- Provide a global business-to-business and business-to-consumer hub
- Interact with Microsoft's BizTalk server
- Send email notification to the originator of processed and/or failed documents
- Copy XML documents to 'failed' or 'processed' folders
- Translate XML documents using an XSLT translator
- SYSPRO business objects protect ERP system by enforcing business logic
- Automate SYSPRO business objects
- Queue messages when the main system is down
- Track and process transactions through Microsoft Messaging Services

# Web-based Applications

A component of the SYSPRO e.net solution designed to provide a new generation of out-the-box applications that can be run on the Internet/Intranet and that can be easily customised to suit end-user requirements.

## The value of the SYSPRO Web-based Applications

- Built using ASP.Net, which is a preferred platform for easy customisation and enhancing
- Utilise SYSPRO e.net solutions to access SYSPRO data
- No additional client overhead - Explorer 6.0 or higher required
- Cost effective
- Reduce the number of SYSPRO licenses required
- Easily deployable
- Accessible from anywhere
- Real time data access and update
- Specialists not required to enhance the product
- Multi-lingual capabilities
- Access and setup controlled via SYSPRO business objects
- Easily add or remove display fields from view
- Cascading Style Sheets (CSS) allow appearance customisation
- Dashboard per operator

## Matching SYSPRO Web-based Applications to your business

- Out-of-the-box web solution

## About K3 Business Technology Group

K3 are the world's largest supplier of SYSPRO ERP systems - one of the most widely installed Enterprise Resource Planning applications. Coupling robust, advanced functionality with first-class service and support, K3's scalable, integrated Enterprise Resource Planning (ERP) solutions are designed to address manufacturing, supply-chain, distribution, financial, customer management, human resources and e-commerce needs.

Our customers benefit from local supply and support backed by SYSPRO's global organisation and it is our reputation for excellence in customer service that has led many of the UK and Europe's leading manufacturing and distribution companies to choose K3 solutions.
